INTRODUCTION

Most people are familiar with their Sun sign based on the month and day of birth. The Sun sign answers the question, "What's your sign?" It is the reference point that is employed when we read newspaper and magazine horoscopes. But what about the nine other heavenly bodies that make their influence felt in our lives? These planets were also in a particular sign of the zodiac when you were born. Here is where Astrology really begins to come alive for each individual. This report will take you on a revealing journey as you travel through each interpretation based on your unique month, day, and year of birth. If your birth time was included, then the Rising sign will add yet another dimension to your personal horoscope interpretation. If it is not included because you don't have an accurate time of birth, there is still much useful and insightful personal information that can be gleaned from your report.

This report takes into account the various spiritual and psychological implications, as well as the material plane potentials which are part of your individual life plan. In this case the word potential is used because you have been given a certain amount of free will and the life choices that you make will determine to a large extent the level at which these cosmic energies actually play themselves out. Use this report to find confirmation for what you already feel intuitively and to unlock the door for new life possibilities that you may not have yet considered. This is where the strength and real value of your personal Astrological report is found.

Your birth chart interpretation is based on the positions of the planets at the time of your birth. These positions, along with other technical information, are listed below:

Chapter 1: The Ascendant

The precise time on the day of your birth determines your particular Ascendant, also known as your Rising Sign. This was the zodiac sign that was rising over the horizon when you were born. In addition to your Sun and Moon Sign, the Rising Sign reveals very important traits that make up a major part of your personality and your individual approach to life. This is usually the impression you like to make before you really get to know someone; it is your outer personality and image.

Sagittarius Rising:

There is a distinct part of your outer personality that expresses itself very much like a Sagittarius. You are adventurous, future-oriented and you speak the truth regardless of what others would rather hear.

Since this was the sign of the zodiac that was rising over the horizon at your time of birth, the principle of Sagittarius--broadened horizons--will be integrated into almost every area of life in some way.

Jupiter is your chart ruler. To discover even more about what's a priority for you, and also, the first impression you make on others, read everything in the chapter on Jupiter.

Mars in soft aspect to Asc.:

Assertive and bold, you have that special something going for you called survival instinct. It's hard to hold you down for long and your general vitality is robust. You attract others with your zest for living and your "just do it" attitude toward life.

Chapter 2: The Sun

The placement of the Sun in your chart will show you how (the sign) and in which area of life (the house) tremendous potential exists for you. Here is where you want to be successful. The Sun cannot be ignored. We must meet and deal with the area of life that the Sun shines on in our chart in order to find ultimate fulfilment. Everything revolves around the Sun. When you master whatever issues the Sun points to, then other areas of life will proceed in a more balanced and satisfactory manner. The Sun also represents: your own will, major goals, the father, men in your life, children, creativity, and the real inner you.

Sun in Capricorn:

As someone born when the Sun was in Capricorn, you lean toward a conservative approach to most matters and you possess a strong sense of duty. You are a hard worker and you will persist with a determined will toward a desired goal. You are capable of tremendous self discipline when necessary. The symbol for this sign is that of the mountain goat. This is most appropriate, as the mountain goat may climb the mountain slowly step by step, but will always eventually reach the top. This is an excellent analogy to describe the essence of the Capricorn principle.

Your cautious nature stems from an innate knowledge that impulsive actions may lead to mistakes that are more time consuming and costly in the long run. Capricorn is the sign of eventual success along with accepting responsibility. Many Capricorns find themselves in life situations whereby they must take responsibility for others in some way.

You would do well to try to lighten up from time to time as your natural tendency toward a serious outlook and heavy sense of responsibility can manifest as chronic pessimism and rigidity. Surprisingly, many Capricorns develop an amazing sense of humour--not only an appreciation of humour, but also the ability to create it. This is because they have learned that the best way to survive is to be able to laugh at the ridiculous ironies of life.

Sun in 2nd house:

Personal fulfilment in life is reinforced by wise handling of your financial affairs and creating your own sources of income. You will learn that personal liberty is enhanced by a stable flow of money. Your self worth is connected to material success and you enjoy being generous. You must watch a tendency to create your own financial stress due to extravagant spending habits.

There is a side to you that is resistant to change, preferring the familiarity of your comfort zone.

You can be fairly stubborn and hard to budge until you're good and ready. Even though security is important-you also value the simple pleasures of life.

Mercury Conjunct or in hard aspect to Sun:

Sometimes you feel as though the only way to make others hear you is to add a touch of flamboyance and colour to your communications. You don't especially like to change your opinions once they are formed.

Mars Conjunct or in hard aspect to Sun:

You have a powerful instinct when it comes down to survival of the fittest and you are a force to be reckoned with whenever issues of survival are at stake. Watch the tendency to argue and compete with others just for the sake of it. Otherwise you'll alienate those who might have otherwise supported you.

Pluto in soft aspect to Sun:

The expression of your will receives a power punch from the planet of intensity, Pluto. You can meet and transform the most serious obstacles to your self development and growth. You can lead the pack, so to speak, because you have that special something called charisma.

Be sure to use your magnetism to further humankind in a positive direction. All leaders eventually reach a crossroad where they will choose between a path of manipulation and power, or conscientious service.

Chapter 3: The Moon

The Moon in your chart represents the past and points to an area of life (the house) where we function out of instinctive awareness. Often we have a deep emotional need to do the things that the Moon's house placement represents. Whenever insecurities arise and our feelings become involved, we tend to bring the traits (the sign) of our Moon into play. The Moon is like our security blanket. It also represents: the home, females in your life, the mother, nurturing others or being nurtured ourselves, as well as things related to the domestic scene in general.

Moon in Sagittarius:

You have an emotional need for a certain amount of freedom. You may also find that from time to time you need to expand your boundaries. This can take the form of travel, spending some time in the great outdoors, or even exercising your mental muscles with new ideas and philosophies. The shifting lunar phases acting on the sign of freedom and adventure can create inner feelings of restlessness that can manifest as making you feel somewhat "scattered."

Your emotions can be quite exaggerated. This means that when you are happy, you're very happy, and when you are depressed, you're really depressed. However, a fundamental leaning toward optimism gives you the ability to bounce back from emotionally down times. You will probably find when you are feeling the blues that getting yourself into some new scenery will do wonders for restoring your outlook on life.

Moon in 12th house:

You have a need to spend some time alone. Periodic withdrawal from the "real world" allows you to level out emotionally and rejuvenate yourself psychologically. Often you are out of touch with your own emotions and the universe seems to keep handing you difficult situations in order to stimulate emotional recognition.

There was something about your upbringing that you don't see clearly. Perhaps you don't have a clear view of either your childhood or both of your parents, but especially your mother.

You are sensitive, intuitive and sometimes restless. You can gain more life satisfaction by helping those who cannot help themselves via a career choice or volunteer work.

Feelings of inertia can stem from buried psychological distress (often former lifetime issues) that drain energy levels and suppress motivation. If this is the case, you may choose to do some past life regression in order to bring old bug-a-boos into the open for positive release and healing.

Venus in soft aspect to Moon:

You have a charming and refined side to yourself that you can call on when the occasion arises.

You do well in most social situations. Objects of sentimental value hold special appeal to you. Music, art and beautiful things soothe your soul.

Jupiter in soft aspect to Moon:

This aspect makes it easy to blow emotional states out of proportion. However, you will eventually bounce back because of an underlying optimism and buoyancy.

You are generous and something of an idealist by nature. You can sleep off a bad mood.

Chapter 4: Mercury

Mercury is the planet of communication. It tells us about how we think and talk. You can gain insight into your mode of gathering, processing and transmitting information from Mercury's placement in your chart. Mercury also represents: transportation, the five senses, youth, reading, and writing.

Mercury in Capricorn:

Level-headed and careful, with this placement you also possess good solid common sense. You have the ability to focus single-mindedly on goals. You are a realist and ideas must have some kind of practical use in order to motivate you into action. You possess an excellent ability to handle and remember facts and figures. Your thinking is methodical and disciplined and these are usually the traits that describe the learning process for you.

You often take life and yourself too seriously. As a result this tendency can make you feel somewhat melancholy at times.

Mercury in 1st house:

Most likely you are quite a talker. You like talking about yourself. That's O.K. People are attracted to your curious light-hearted demeanour and the way you can easily keep the conversation going. You enjoy gathering and sharing information. You can use the power of words to attract much of what you want out of life.

You strike others as youthful either in appearance or outlook.

Chapter 5: Venus

Venus is the planet of relating to others, and thus is associated with love, attraction and socializing. In a male's chart, Venus can provide clues about traits he finds attractive in females. In a female's chart, it reveals something about how she relates to males. Venus is also the planet of material goodies and sensual delights in all of their various forms. Venus also represents: money, harmonious conditions, pleasurable activities, beauty, and the arts.

Venus in Aquarius:

You are friendly and cooperative by nature, but you may appear somewhat aloof and detached in the eyes of others due to the highly independent spirit of Aquarius.

You are quite attached to your freedom and even though you can be as loyal as anyone, you must maintain a certain amount of autonomy in relationships.

In general, your friendships may include many people versus single, intense partnerships. This placement of Venus can bring sudden and unexpected attractions that sometimes end as suddenly as they begin. Ideally your partner is a friend as well as a lover and will understand that your need for independence doesn't mean that you're not interested in him or her.

You function well in groups and may be especially attracted to groups which promote a common cause. Aquarius is the sign of humanitarian interests and wide-scale change. You live by your own code (which may be quite unique) regardless of what society thinks.

Your money may be subject to circumstances beyond your control or you could have more than your share of unexpected financial situations to deal with.

Venus in 2nd house:

Financial security and enjoyment of the good things in life are important to you. You can be a lavish spender because money matters tend to work themselves out in your favour in the end.

The ability to relate harmoniously with other people will enhance your money supply.

Venus here helps to grant more stability in close relationships and affectionate attachments.

You may have some inherited artistic/musical ability.

Jupiter Conjunct or in hard aspect to Venus:

You can be fairly extravagant with your finances. The word excessive often describes your attitude toward matters of love and money. You are attracted to the finer things in life, and you don't mind indulging yourself.

Chapter 6: Mars

Mars is our planet of action, energy output, motivation, and instinctive biological drives. It shows how and in which area of life you are willing to put forth a lot of effort. Mars' energy is quick, impulsive, and survival oriented. In a male's chart, Mars reveals something about how he relates to females. In a female's chart, Mars can provide clues about the traits she finds attractive in males. Mars also represents: competitive situations, conflicts, accidents, and sexual energies.

Mars in Libra:

You are rational, adaptable and drawn toward other people. Mainly, you enjoy social contacts because they satisfy your need for mental stimulation.

You usually have high standards of conduct and behaviour. When you feel strongly justified about an end you are capable of going to extremes to see it through. However, the planet of action and aggression in the sign of diplomacy and cooperation can also combine to cause you to feel somewhat apathetic about life at times.

The Libran desire for justice, harmony and perfection are strong in you, and when others don't follow this same line you can be quite demanding. You generally dislike open conflict, instead preferring to use more subtle techniques to get things moving your way. However, you will eventually succeed.

Mars in 11th house:

You're willing to expend a lot of effort and energy in group affiliated activities. This refers mainly to groups of people who join forces to work toward a common cause. Many times this includes organizations whose goals are geared toward wide-scale social change.

You actively seek out friends and acquaintances, but betrayals of trust may be encountered with Mars here. When in doubt, keeping your own counsel and trusting your own intuition will allow you to avoid disappointments.

Most likely you are more action oriented than dream oriented when it comes to the attainment of your personal hopes and wishes.

Chapter 7: Jupiter

Jupiter is the planet of expansion and taking things beyond normal limits. It shows us where the universe allows us to indulge ourselves, and often we find that wherever it is in the chart is where things work out in our favour eventually. Some call this luck. Jupiter also represents: faith, ideas about God, abstract thinking, high ideals, and abundance.

Jupiter in Leo:

You are a generous person and you have quite a flamboyant side to your nature. You can attract the attention of others with ease, which makes you successful in most social interactions.

You have a healthy belief in yourself and many of the benefits in life are conferred through your ability to follow your heart.

You also have a talent for organizing and leading others. People may win you over with praise and recognition, which you love to receive. That's O.K. You probably deserve it.

Jupiter in 8th house:

Other people's money can be fortunate for you. Most likely this will be through an inheritance of some sort, although it's hard to say how much.

This placement indicates that something about your personal belief system and/or your ideas about God will undergo a drastic change.

Sex and emotional expression is important to you and you will have at least one deeply intimate bonding experience with another person.

The world of metaphysics can be beneficial for you. You can combine traditional religious ideas with supernatural concepts.

Jupiter is Retrograde

Your abundance is felt on the inside. You can feel satisfied with less than other people, which can be quite admirable in a way. The result is, it's easy for you to settle for crumbs when you'd really like more out of life. Take an honest inner inventory of what you believe you deserve, because that's what you'll get. Affirm to yourself that you can have what you want because you're worth it.

Chapter 8: Saturn

Saturn is our planet of restriction and discipline. It shows us where we may feel inadequate in some way, and thus we take this area of life very seriously because we want to perfect ourselves. Saturn also represents: life lessons to be learned, trials and tests, a strong sense of duty, and bringing ideas into material form.

Saturn in Pisces:

This placement of Saturn can be an indication that you will have many issues stemming from past life influences to deal with. Life lessons involve forgiveness, humility and altruism. You have the ability to combine spiritual realization with earth plane existence. Learn the value of helping your fellow man without thought of reward.

You will have to learn the art of persevering against the odds and often the only encouragement you receive will be from you yourself. Be your own cheerleader if necessary. Divorce yourself from negativity.

It is extremely important that you not undervalue your own unique contribution to humankind. Self depreciation will only lead to frustration and depression.

Reminder: free yourself up by doing whatever it takes to release any motivation that is based in fear and guilt. Pamper your feet. Yours need extra TLC.

Saturn in 4th house:

Feelings of inadequacy may have developed during your upbringing due to the influence of one or both parents. You were probably well cared for but there was something about the nurturing you received that seemed lacking in real warmth and security or perhaps there was a general tone of pessimism and restriction in that environment. You may go above and beyond as an adult in order to fill these "voids within" and you can end up being quite successful as a result.

Uranus Conjunct or in hard aspect to Saturn:

From time to time you will experience shakeups in your attitude toward established modes of thinking and traditions that support the status quo. There is a certain amount of contentment with long held traditions. At the same time there is often an inner compulsion to break free and shake things up a bit! As soon as you begin to feel comfortable with your station in life or your achievements, unforeseen circumstances often arise that prod you into activity and forward movement again.

You take yourself too seriously at times and you avoid putting yourself into subordinate positions at work or in any other group situation. If you can sit back and look at life with a different perspective, you will be able to see the value of the humorous side of life especially as it applies to you.

Lighten up on your fellow man while you're at it. Those who share your capacity

for progressive thinking and inventive approaches may be hard to come by, so you may as well make up your mind to go with the flow. Your visions will manifest more efficiently with the support of others.

Neptune in soft aspect to Saturn:

You can bring that which is without form into concrete existence. For example, you have an ability to take whatever you imagine and manifest it through art, music, or theatre. You can even express profound feelings through poetry and writing.

This is a lifetime in which part of your mission is to bring a bit of the ethereal realm into physical earth plane existence.

You seem to always have one foot outside of "reality" and the other planted firmly on solid ground. Mystical concepts must serve a constructive purpose and functioning on blind faith is not a credible concept for you.

Your sense of responsibility is well developed, perhaps too much so. It may not be easy, but try to avoid acting on motivations that play off guilt and fear, such as allowing others to take advantage of your time and resources. Cultivate conviction and eradicate irrational doubts or fears.

Heaven on earth is more than simply a trite phrase for you. It is your innermost vision.

Pluto Conjunct or in hard aspect to Saturn:

This is a lifetime where you will develop strength of will and the power to face obstacles head on. Basically your outlook on life is earnest and you'd do well to resist the temptation to wallow in pessimism and self pity. Take heart; this aspect confers the necessary willpower to rise above difficult situations that would make most others run for the hills.

You can be a mover and a shaker as long as you retain the ability to be adaptable, humble, and to heed the wisdom of those who have already walked the tough road before you. This is a positive aspect for success through perseverance and you may someday point the way for others who have trials to master.

Chapter 9: Uranus

Uranus is a planet of unexpected change and unpredictable events. It tells us something about where we have unusual ideas and how we want to express our own unique individuality. Uranus also represents: rebelliousness, sudden awakenings, invention, progress, genius, anything "New Age," and humanitarian efforts.

Uranus in Virgo:

Uranus was in the sign of Virgo for approximately seven years. This means that you are part of a large group of people who will share many of the same fundamental characteristics such as the ability to be analytical and reality oriented. Many will take an unusual approach to scientific advances, health related issues, and the work environment.

When you read your individual house placement for Uranus, you will be able to see where these traits will express themselves on a more personal basis.

Uranus in 10th house:

You can be a genius when it comes to carving out a career for yourself. Don't be surprised if you end up being your own boss. This would appeal to you since you may have a rebellious attitude toward authority figures anyway. Whatever you do, there is a good chance that it will not be along traditional lines.

Be prepared for sudden changes in the career department. Breakthroughs can happen with lightning speed.

Neptune in soft aspect to Uranus:

Idealistic and quite the visionary, you have much to offer in the way of hope and grand possibilities for your generation. You may have extraordinary abilities relating to mystical subjects. Here is where imagination and intuition combine, and the visualization of a utopian society based on a desire to further the lot of humankind can spur you on to tremendous achievements. You have incarnated along with a group of individuals who will join together with others of like mind to focus your unique talents on many global issues and pressing concerns.

Pluto Conjunct or in hard aspect to Uranus:

When it comes to expressing your uniqueness there is very little middle of the road as far as you're concerned. You're definitely a fighter for freedom and depending on personal choices you can be quite the revolutionary. You'll witness many drastic changes in the society you live in and the world you leave will be very different from the one you came into. This generational aspect endows many under its influence with a powerful sense of mission where issues of freedom and individual rights are

concerned.

Uranus is Retrograde

You can be a real character inside. Few people get this impression right away. You'd rather play the role of conformist until you feel comfortable enough to let your hair down. Then everyone is either shocked or pleasantly surprised depending on whom you hang out with.

Chapter 10: Neptune

Neptune is a planet that dissolves hard and fast boundaries. It is where we don't always see things as they really are, mostly because we would rather view the world through rose-colored glasses.

With Neptune, anything becomes a possibility, especially that which we can imagine. Neptune also represents: tuning into other planes of reality, the spiritual dimensions, cosmic consciousness, movies, music, and inspired creativity.

Neptune in Scorpio:

Because Neptune stays in the same sign about fourteen years, there are many other people who will experience the same things that this placement brings to varying degrees. Some of these include: a breakdown in sexual boundaries, positive spiritual transformation or extreme confusion along those lines, and a high level of deeply perceptive insights about yourself or others.

Your house position will show where Neptune affects your life on an individual basis.

Neptune in 12th house:

You have a soft spot inside for the underdog and you can easily empathize with the suffering of your fellow man.

You avoid unpleasant realities by tuning them out. This can take the form of psychological denial or, in the extreme case, the use of addictive escapes. Mind altering drugs are best avoided.

This placement can indicate a strong influence from past lives that is carried over into this lifetime and you may be someone who receives vivid past life impressions. Professional past life regression can often help to heal any chronic psychological unrest.

Pluto in soft aspect to Neptune:

Bigotry and narrow thinking are huge turn offs for you. You lean toward a humanitarian outlook and you see the big picture, whether it applies to you or society as a whole. Mysticism, magic and the occult attract your interest and you can choose to use any knowledge gained to produce positive results.

Spirituality can undergo a complete regeneration process, and what went before will be transformed into something that doesn't even resemble the former. Usually there is a period of total chaos and confusion before order is restored.

Anything that is based on deception and pretence will be brought to light and purged accordingly. The effects of this aspect are often generational and the outcome will affect large segments of the society you live in.

Chapter 11: Pluto

Pluto is a planet that brings with it transformation. Something about the area of life that it points to will undergo a complete change. Significant lifestyle changes can happen whenever Pluto is involved. Deep, complex issues will be brought to light eventually. It is where conditions can swing from one extreme to the other. It's all or nothing.

Pluto also represents: psychological probing, keeping secrets or bringing them to light, power and control issues, obsessions, healing and purification.

Pluto in Virgo:

Pluto is the slowest moving planet, and thus is recognized as exerting a generational influence as it moves through each zodiac sign.

With Pluto in Virgo you're part of the generation that can experience radical changes in scientific discovery, the medical profession, diet and nutrition and the work ethic.

On a personal level, those with Pluto in Virgo tend to be aware of health related issues and are analytically minded, perfectionist and discerning.

Read the house placement for Pluto in your chart. It shows you an area of life where this planet has a more personal influence.

Pluto in 10th house:

Your approach to your career is assertive and in some cases, you may seem almost compulsively driven towards some kind of recognizable achievement. Try not to let this drive overpower your sense of fair play when dealing with others on the way to the top.

You can be a powerful authority figure and there is little that can make you veer off course once your mind is made up. It's possible, depending on your own individual life choices, for you to be in a position in which you affect the lives of others in a very influential way.

You may experience more than your share of conflict with other strong authority figures. You'll have to know when it's time to make compromises even though it's not easy when you feel your personal goals are at stake.

Pluto is Retrograde

Some people go through massive changes that are clearly shown in outer circumstances. You go through tremendous inner upheavals followed by rejuvenation on the inside. You are one strong individual. You have depth of character and a lot of class. You've earned it. You're like tempered glass. You might crack, but you won't shatter.

Chapter 12: Elements, the North Node, and the Midheaven

In this section of the report we interpret the following astrological influences: the Moon's North Node, the MC (the 10th house cusp or Midheaven) and also a preponderance of an astrological element. A "preponderance" occurs when 4 or more planets or the Ascendant is in that element: fire, earth, air, or water. Many people do not have a heavy emphasis of a particular element so not everyone will have an interpretation of an element emphasis.

If the individual chart has aspects to the MC, these will reveal certain career options and potentials for your consideration.

The North Node is an important pointer along the pathway of life. You'll have to be willing to stretch yourself and move away from familiar patterns in order to meet the challenge of the North Node. Great rewards will be reaped in the form of personal growth and reaching your potential goals. The North Node sign will suggest an approach to the area of life represented by its house position.

North Node in Taurus:

Incorporating the following traits into your life will make it easier in the long run to attain goals.

The best way to describe this principle is to imagine a bird having to leave its nest for the first time. It is extremely challenging, but it's the only way to really learn to fly.

Your North Node is in Taurus. Cultivate patience and determination. Enjoy the fruits of the earth and the fruits of your own labour. Take some time to smell the roses. Commune with Mother Earth. Wallow in sensual and tactile pleasures. Learn to appreciate natural beauty and find contentment in the simple joys of living. Find and create peace in your little corner of the world.

North Node in 6th house:

The universe is encouraging you to play up the aforementioned traits in these areas of life.

Consider the following: work for a living and learn how to relate to co-workers or employees. If you don't have to work, then perhaps volunteering to help others, while at the same time learning to set some limits on your time and energy.

Listen to the messages from your body and actively create your own state of health. Explore alternative health therapies.

MC Conjoint or in hard aspect to Sun:

You'll have to develop the ability to put yourself in the limelight in order to go after what you really want career-wise. Ego conflicts with those in authority can create setbacks until you learn the art of finding a middle course.

A career that provides an outlet for creative self-expression, leadership abilities and personal recognition is important to consider. Hint: read the section on your Sun Sign

and ask yourself how those traits might best be expressed when choosing a career.

MC Conjunct or in hard aspect to Mars:

It's hard for others to pull you down because you have an innate understanding of how to draw on pure instinctive survival skills. You respect authority figures, but you're not afraid of speaking up around them when you feel it's called for. At these times you'll often forego the gentle art of diplomacy and you'll have a good deal of conflict to contend with after you've aroused the combative side of others.

A career in the military, professional athletics, marketing, or in supervisory positions is supported. Choose a career that allows you to draw on your natural ability to lead, compete and meet new challenges.

Four or more Earth Signs

Stable and grounded, you will learn all about how to bring what you dream about into practical reality. Manifestation is the key here. Develop a habit of finishing whatever you start. Enjoy and appreciate the bounty that the earth offers.

You like feeling useful and you can develop a real talent for solid accomplishment in life. People admire your willingness to take responsibility for getting things done.

Chapter 13: House Rulerships

This chapter deals with an Astrological technique known as House Rulers. The "houses" of the horoscope deal primarily with your earth plane experiences. As such, the tone of these interpretations may appear to be more "predictive" in nature. Not all statements will apply absolutely to your experience. Here we are exploring some of the various options that may exist in your chart based on the links between these twelve major areas of life, the Houses of the Horoscope.

Ruler of 1st house in 8th:

You may have a lot of curiosity about the so-called mysteries of life such as occult practices and other metaphysical studies. You can develop your psychic abilities or perhaps you are more drawn to the healing potential found in the eighth house.

You'll likely have an important experience that transforms your life approach in a major way. Whatever it is, you'll emerge more evolved at a very deep level of your being.

Other people's resources, such as a spouse's money, or an inheritance, could play a significant role in your life somehow.

Ruler of 2nd house in 4th:

You don't mind spending money on your family or your home, because you value these things deeply. For you, the money that you earn is equal to a strong sense of security and emotional peace.

Money may be earned by working out of your home, or by being involved in any form of domestic or home related activity. Real estate sales and property investments would be considerations also.

Ruler of 3rd house in 10th:

Your thinking is geared towards your career goals and chances are your ideas may come before the public in some way. You speak with authority and you also want your ideas to come to the attention of your boss or other authority figures. Your own ability to communicate or anything else involving communications could play an important role in your career.

A sibling or near relative can have a significant influence on your career or they themselves may come before the public in some manner.

Ruler of 4th house in 12th:

There may have been unclear circumstances surrounding your mother or other close family members-perhaps mentally creating an idealized version of your childhood circumstances.

You could be a very private person and you feel emotionally secure even when you are alone.

This can also mean that you'll become more spiritually oriented during the second

half of life, perhaps putting more emphasis on developing that side of yourself.

Ruler of 5th house in 11th:

One of your children, especially the first, could be like a friend to you. Chances are your children are unusual in some way.

A love affair may turn into a friendship or the element of friendship is important with regards to those you become romantically involved with. It's likely that you are attracted to unusual people.

You enjoy socializing with large groups of people and you enjoy putting your creative abilities to use for humanitarian causes. Some of your goals may involve creating change on a large social scale.

You feel very generous and loving towards your friends. Becoming socially active helps you manifest your hopes and wishes.

Ruler of 6th house in 2nd:

The health related fields may increase your income. You worry too much about money and possessions, although you may have good powers of discrimination when it comes to handling money. You're willing to work diligently for your money.

Ruler of 7th house in 1st:

Partnerships, such as marriage or best friends, have an important impact on your outlook on life. Your partner is a reflection of you and you can gain insight into some of your own motivations by observing the behaviour of those closest to you. You'll have to be willing to take an honest inventory of yourself in order to learn from these experiences.

Other people in general are strongly influenced by your personality and you can project more power than you think you can.

Ruler of 8th house in 12th:
